

## How to Make Pearl Earrings

Step 1: Cutting the gold wire

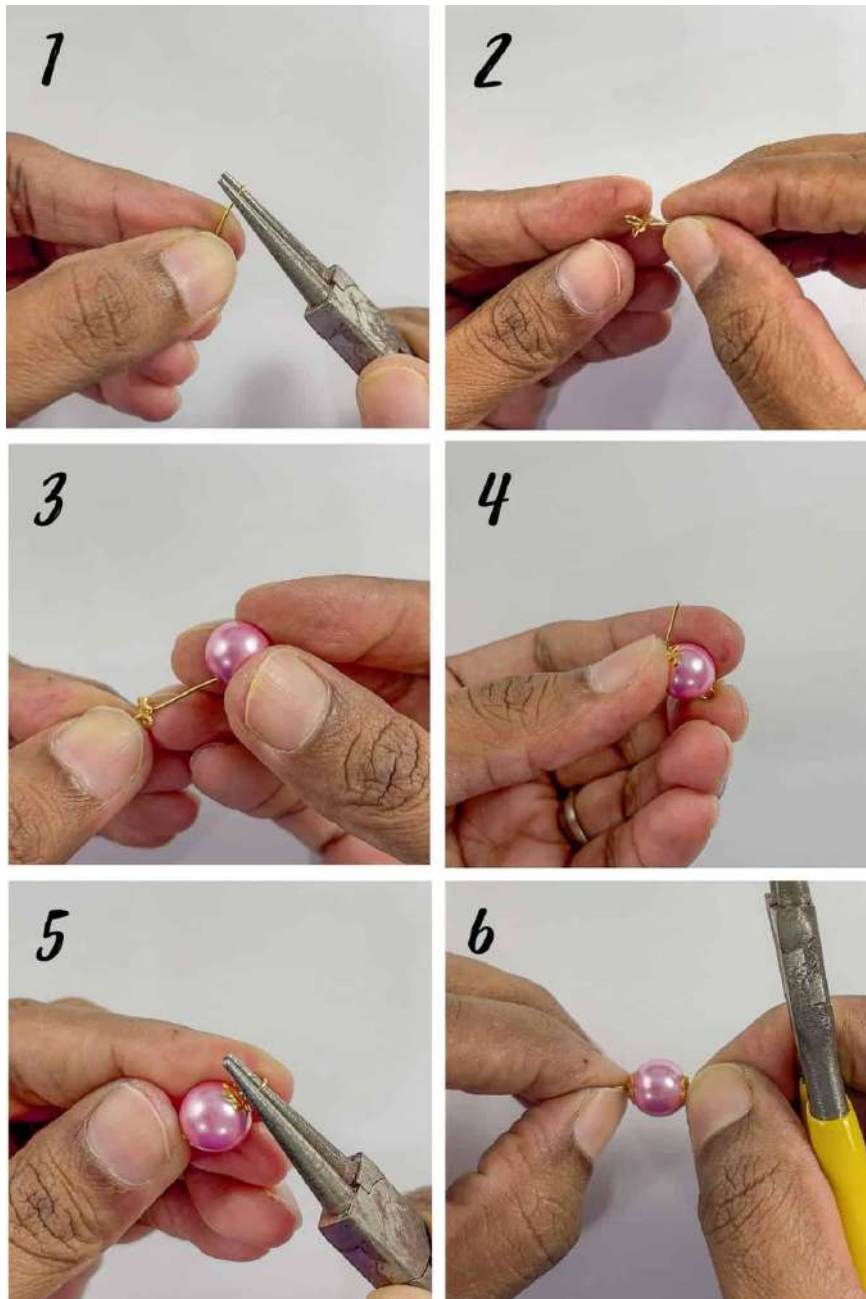

1. Measure and cut the gold wire to 2.75cm length.
2. Cut out 4 pieces of equal length.

## Step 2: Looping the green pearl bead

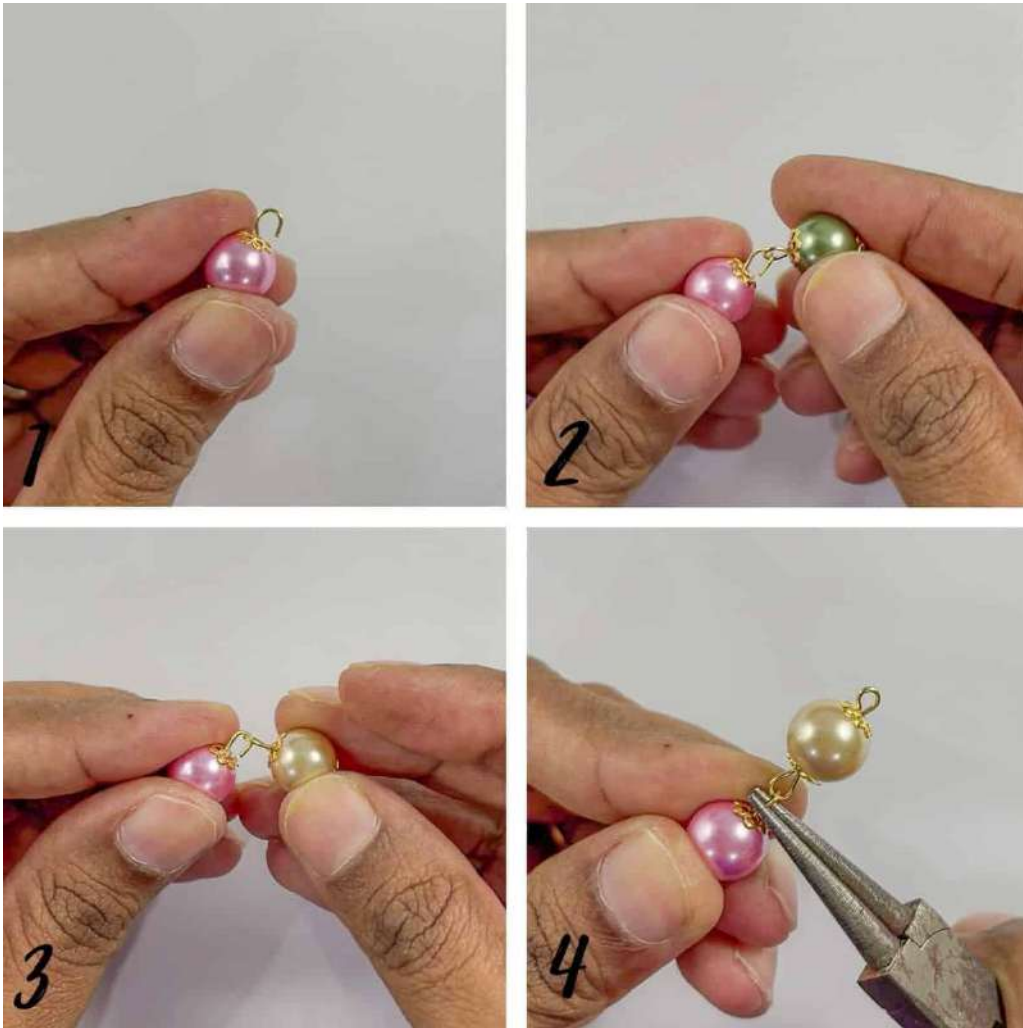

1. Insert a bead cap into the head pin.
2. Next, insert the green pearl bead.
3. Follow with another bead cap.
4. Bend the wire.
5. Cut it off at 1cm mark.
6. Loop the wire with a round nose plier. Repeat the process for the other green bead.

### Step 3: Forming the bead loops

1. Make a loop at the end of the first gold wire.
2. Insert a bead cap.
3. And then a pink pearl bead.
4. Follow with another bead cap. Bend the wire to a 45 degrees angle.
5. Form a simple loop with the excess wire.
6. Hold both the loops and twist to align them. If they are already aligned, no need to twist. Repeat the process for the other pink bead as well as both the champagne beads.

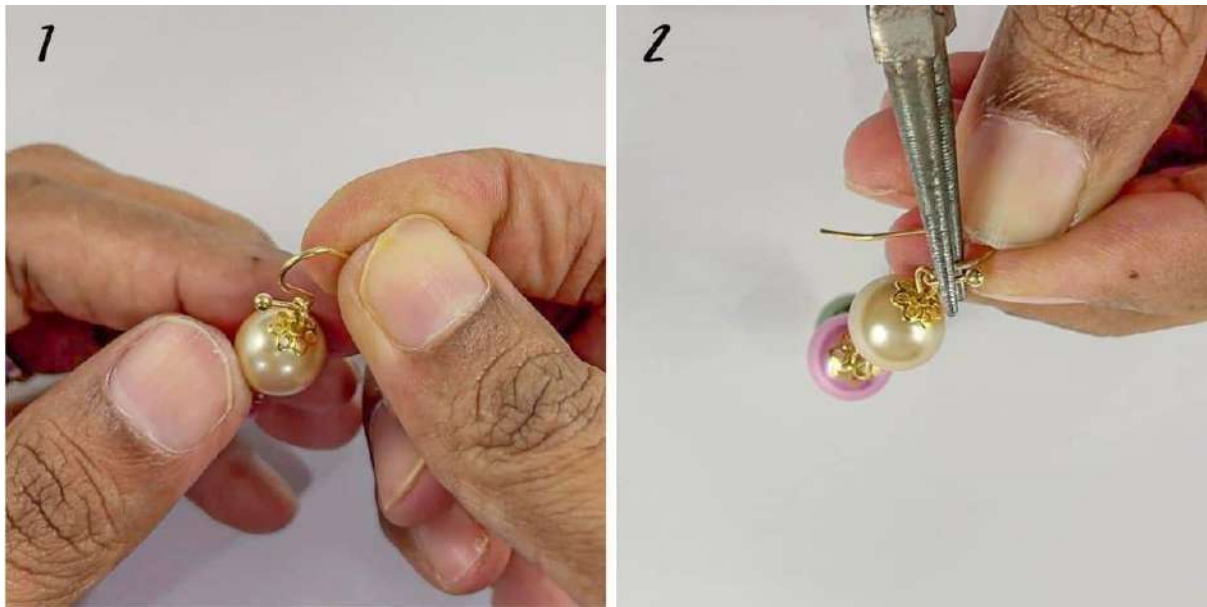

#### Step 4: Assembling the pearl dangle

1. Using the round nose plier, open the loop on one end of the pink bead slightly.
2. Insert the green pearl loop. Close the loop.
3. Open up the other side of the pink pearl bead loop.
4. Insert the champagne pearl bead loop. Close the loop.

Repeat the process for the other dangle.

### Step 5: Assembling the earrings

1. Insert the pearl dangle into the earring hook.
2. Use the round nose plier to press the opening tight.

And that completes the steps on how to make the pearl earrings. Repeat the steps above to complete the other side of the earring.
